## Profile Summary

Software Developer with hands-on experience building and maintaining web applications using React and modern JavaScript. Proficient in developing scalable frontend architectures, integrating applications with backend services, and consuming RESTful APIs for real-world business workflows. Experienced in creating reusable components, managing application state, and collaborating on production-grade dashboards and core modules. Passionate about writing clean, maintainable code and delivering efficient, user-focused software solutions.

## Experience

**Trainee Software Engineer**, CognitionX Logic Pvt Ltd Jan2026 – Present

- Designed and implemented a universal update mechanism to handle shared state updates across modules, eliminating repetitive conditional logic.
- Reduced code duplication by ~40–50% by abstracting common update patterns into reusable functions.
- Improved codebase maintainability and scalability, reducing bug resolution time by ~30%.

## Education

**Loganatha Narayanasamy Government College**, BSc Computer Science June 2022 – Apr 2025

- CGPA: 7.5/10.0

## Projects

**Kanban Workflow Management System** [Live Demo](#)

**Tech Stack:** React, TypeScript, DnD Kit

- Developed a Kanban-style task management system to visualize work items across workflow stages.
- Improves task visibility, bottleneck identification, and team productivity, similar to Agile tools like Jira and Trello
- Implemented drag-and-drop functionality using DnD Kit for intuitive task movement and real-time state updates.

**JavaScript Event Loop Visualizer** [Live Demo](#)

**Tech Stack:** JavaScript, HTML, CSS

- Built an interactive visualizer to demonstrate how the JavaScript event loop works, including the call stack, callback queue, microtask queue, and asynchronous execution flow.
- To deeply understand JavaScript’s concurrency model beyond theoretical knowledge.
- Learned Mutation Observer for monitoring DOM changes and dynamically responding to UI updates.

## Skills and Technologies

**Frontend Technologies:** React, HTML, CSS, Tailwind CSS, Bootstrap

**Backend Technologies:** MySQL, REST APIs

**Programming Languages:** JavaScript, TypeScript

**Frameworks & Libraries:** Frappe, ERPNext, Doppio

**Tools / Platforms:** Git, VS Code

## Internships and Certificates

**Software Engineering Intern**, CognitionX Logic Pvt Ltd Jul 2025 – Dec 2025

- Issued On: Dec 2025 [Link](#)
- **Skills:** React, Frappe, ERPNext , Doppio
